Application of Rates

10 Unless otherwise provided, the rates herein cover transportation of biohazardous, infectious, contaminated, and other related infectious, medical wastes, in specialized containers, for the permanent disposition of such products as specified on the title pages herein. All rates shall be in addition to:

1. Actual service fees charged for professional evaluation of medical waste streams and packaging requirements as necessary to comply with all applicable regulations.

2. Special clean up (decontamination) time and expense charges which may result from improper packaging, or emergency requirements of generators.

Limitations on Service

20

1. The waste material to be properly managed by the Company is biohazardous/infectious waste produced by the generator. Title to all waste shall remain with the generator. The generator represents and warrants that the waste is as described by generator and that generator has disclosed to the Company in writing, all of the hazards and risks incident to the handling, storage, and disposal of the waste. Generator agrees to defend, indemnify and hold harmless the Company from and liabilities resulting from or arising out of any non-disclosure or misrepresentation as to the quality, hazards, risk and dangerous propensities of the waste material.

2. Transporter reserves the right to modify standard box sizes in the future provided cost per gallon equivalent remains the same, unless and until conversion cost changes are provided by the Washington Utilities and Transportation Commission.

3. The generator acknowledges that it has care, custody, and management of containers owned by the Company, and accepts responsibility for the containers and contents except when they are being physically handled by employees of the Company. Therefore, the generator expressly agrees to defend, indemnify and hold harmless the Company from and against any and all claims for loss or damage to property, injury to, or death of any person or persons resulting from or arising in any manner out of the use, operation or possession of the containers furnished by the Company.

4. Only properly filled containers will be picked up by the Company. No leaking, damaged, or over-filled containers will be picked up by the Company. All containers must have sealed bag liners before they will be accepted for pick up by the Company.

5. The generator grants to the Company the right of access into its premises in order to carry out the services. The generator warrants that any right of way provided by the generator from the containers or storage locker (s) location (s) to the most convenient public way is sufficient to bear the weight of all the company's storage locker (s) and vehicles required to perform the service.

6. The generator acknowledges that the Company shall not be liable for any damages to pavement or driving surfaces resulting from its trucks servicing an agreed upon area and generator shall defend, indemnify and hold the Company harmless from and against any and all claims for loss of damage to property, or injury to, or death of any person or persons resulting from the driving of said trucks in that area.

7. The Company will offer pickup of Biohazardous waste containers on an once a month schedule to our regular route custom. This will be done on the same day of the week to be determined by the Company. We are offering "On Call" service once a month, as well. If the customer needs a pickup at a time not normally offered, we will make arrangements to make the required pickup.
