§199	Pipeline Safety Regulations Drug and Alcohol Testing	Yes	No	Does Not Know
.3, .101 .201, .245	1. Does the company have a plan for drug and alcohol testing of employees and contractors performing, or ready to perform, covered functions of operations, maintenance, and emergency response?	Yes		
Comments	Cascade Natural Gas does have a plan for drug and alcohol testing of employees and contractors performing covered functions, maintenance and emergency response.			
.3 .105(c) .225(b)	2. Does the company perform random drug testing and reasonable suspicion drug and alcohol testing of employees performing covered functions? For random drug testing, enter the number of times per year employees are selected and the number of employees in each selection in Comments below.	Yes		
Comments	The company performs random drug testing and reasonable suspicion drug and alcohol testing of employees performing covered functions. During 2014 there were 3 random PHMSA and 3 random FMSCA tests performed. There were no employees pulled for reasonable suspicion testing. During 2014 103 employees companywide were selected for random testing. PHMSA pool is tested at 25% annually and FMSCA is tested at 10% annually.			
.3 .105(b)	3. Does the company conduct post-accident/incident drug and alcohol testing for employees who have caused or contributed to the consequences of an accident/incident? Enter the position/title of the employee who would make the decision to conduct post-accident/incident testing in Comments below.	Yes		
Comments	Cascade conducts post-accident testing on those who have caused or contributed to the consequences of an accident or incident. The employees who would make the decision to conduct testing during 2014 for Bremerton, WA employees were Rick Coy, Mgr District Operations, Chris Bossard Mgr District and Chand Marek, Dir, Region. All managers or directors recommending post-accident testing will confer with the Mgr, Human Resources – Robert Harris and the Safety Department.			
.113(c) .117(a)(4) .227(b)(2) .241	4. Does the company provide training for supervisors on the detection of potential drug abuse (minimum 60 minutes) and alcohol misuse (minimum 60 minutes)?	Yes		
Comments	Supervisor training is performed at the time of hire and periodically during a manager's career. The manual used is Recognizing Drug Abuse & Alcohol Misuse in the Workplace – A Supervisory Training Manual. The most recent training for Rick Coy was completed on 2/16/14, for Chris Bossard was completed on 12/20/2010, and training for Chanda Marek was completed on 8/29/2007. Additionally, training for Robert Harris was completed on 08/29/07.			
.3 .113(b) .117(a)(4)	5. Does the company give covered employees an explanation of the drug & alcohol policies and distribute information about the Employee Assistance Program, including a hotline number? Provide details in Comments below.	Yes		

PHMSA Pipeline Drug & Alcohol Questions

§199	Pipeline Safety Regulations Drug and Alcohol Testing	Yes	No	Does Not Know
.239(b)(II)		Yes		
Comments	<p>The Company provides employees a copy of the Alcohol Misuse Prevention Plan and Anti-Drug Plan at the time of hire and when the policy is updated, most recently in March 2013. The hotline numbers are included in the plan and the hotline numbers are also posted on the employee bulletin board. Employees are provided information on the Employee Assistance Plan on a regular basis. Educational information on the Drug and Alcohol program is distributed or discussed annually during safety meetings along with information or updates on the Employee Assistance Program. The US Department of Transportation pamphlet titled "What Employees Need To Know About DOT Drug & Alcohol Training" was distributed in 2010. In 2011 a program was conducted for Broomfield employees using the pamphlet titled Substance Abuse Training For The Workplace-An Employee Handbook. Post-accident training was conducted for managers during a 2011 Safety & Compliance meeting in Boise Idaho. EAP brochures and postings are distributed to employees semi-annually.</p>
