**RE: LNG Facility, Operations & Maintenance Manual Review – Puget Sound Energy – Tacoma
LNG (Insp. No. 7452)**

Dear Ms. Gilbertson:

Staff from the Washington Utilities and Transportation Commission (staff) conducted an Operations & Maintenance Manual review of Puget Sound Energy's (PSE) Liquefied Natural Gas (LNG) facility in Tacoma. This review was based on materials provided by PSE.

Staff's review indicates that the manual currently complies with all applicable Part 193 regulations and additional conditions agreed to by both PSE and Staff. Staff's initial review of the O&M manual is complete as of February 4 2021.

Staff thanks PSE's personnel for their cooperation and assistance during this review.

If you have any questions or if we may be of any assistance, please contact Lex Vinsel at (360) 789-6024.

Sincerely,

Sean C. Mayo
Pipeline Safety Director
