**RE: 2020 Natural Gas Standard Inspection – Puget Sound Energy – West King Unit (Insp. No. 8042)**

Dear Ms. Gilbertson:

Thank you for your letter dated November 19, 2020, addressing the findings of our 2020 West King Unit inspection conducted virtually for records and in-person for the field portion.

Staff accepts PSE's proposals to bring these items into compliance with one exception. Given the location of Weld 10 (missing repair documentation) on the 12" STW Main Relocation-Alaskan Way at Pier 57 Project, we will require PSE leak survey **monthly** until this weld is replaced. This inspection will be closed as of the date of this letter.

Staff thanks PSE's personnel for their cooperation and assistance during this inspection.

If you have any questions or if we may be of any assistance, please contact Dennis Ritter at (360) 402-0066.

Sincerely,

Sean C. Mayo  
Pipeline Safety Director
