RULES AND REGULATIONS

Rule 2 – Water Service

(a) Application: Service and supply of water shall be rendered only after the signing of an application by the prospective customer and its acceptance by the company, such application to state fully and truly all the purposes for which water may be required; and agreement by the applicant to conform to the lawful Rules and Regulations established by the company and filed with the Commission. As part of the application, the prospective customer must complete a cross connection survey for the application to be considered complete.

(N)
|
(N)

(b) Change of Use: The customer will not increase his demand or use of service as stated in his application without giving due notice of such increase. In the event of such increase, the customer will be required to pay the company's regularly published rates for such increased service and demand from the date of connection and use of the same.

Whenever the customer desires to discontinue the use of water for any special purpose or through any fixtures mentioned in the original application, he shall cause the fixture to be removed and the branch pipe or service supplying the same to be capped or plugged, and shall notify the company in writing before any reduction in charge will be made. Such a reduction in charge is contingent upon the provisions of the company's tariff.

(c) Termination of Service: Service will be discontinued upon the customer giving the company written notice prior to the customer giving the company written notice prior to the date of disconnection. The customer will be held responsible for all charges accruing prior to the date specified in the notice, or in the case of failure to give notice, then until the water is turned off.

RULES AND REGULATIONS

Rule 2 - Water Service (Continued)

(d) Limitations on Service: Service shall be subject to the capacity available from existing wells, or other sources of supply, of the utility. All schedules for water service apply to customers located on the established water mains of the utility. The customer shall not sell, or permit others to use such service, except when expressly authorized to do so under appropriate contract.

Rule 3 - Services

The pipe and facilities through which water is furnished from the distribution system to each separate building, residence, summer cottage, tent, camp, or group of buildings that is or could be logically served by one pipeline will be considered a service. Only one customer will be permitted on a service except as approved by the utility.

Rule 4 - Service Connection Charge

Customer shall pay the appropriate service connection charge, see Schedule 3, prior to receiving service from the company.

Rule 5 - Reconnection Charge

Whenever service has been discontinued due to delinquent account, request of customer, refusal to make proper repairs, failure to comply with these Rules and Regulations, or similar cause, a charge of \$30.00 will be made for restoring service, provided reconnection of the facilities can be completed within the hours of 8:00 a.m. to 4:00 p.m., Monday through Friday, except holidays. If reconnection is requested to be made during other than the above hours, the charge shall be \$50.00. The reconnection charge shall be paid before service is restored.

Rule 5 - Reconnection Charge (Continued)

If the utility dispatches an employee to discontinue service and the customer pays the delinquent amount to the dispatched employee, a \$10.00 service charge will be assessed by the utility to cover expenses incurred. No charge will be made for reconnection of the service if the shut-off was made for the convenience of the utility in making repairs, changes, etc. (T)

Rule 6 - Service Connections

The utility will construct service connections of a proper size, as determined by the utility, from its distribution mains to the customer's property. The utility reserves the right to refuse to construct a service connection to any property in case a reasonable doubt exists as to continuity of service, or in case the applicant's pipes are not properly constructed and protected.

Rule 7 - Installation of Meters

The utility reserves the right to meter any flat rate service at its convenience, the utility's metered service rates thereupon to become effective, provided the customer has received 30 days written notice. All meters so placed will be installed and maintained by the utility without cost to the customer.

Rule 8 - Distribution Main Extension

Where elevation and construction conditions permit and one or more bona fide prospective permanent customers request a main extension, the main extension will be constructed pursuant to a contract executed for such construction.

Rule 8 - Distribution Main Extension (Continued)

Subsequent applicants requesting service on such an extension within three years after the establishment thereof shall obtain, in writing, from each and all of the original applicants who at the time connected to the extension made payments under these rules, either

(a) A receipt acknowledging payment of a pro rata share of the amount paid on the extension by the original applicants, or

(b) A waiver of payment in lieu of receipt under (a).

Rule 9 - Responsibility for, and Maintenance of, Services

The point at which water shall be delivered to and received by the customer shall be at the utility's side of the meter installed to serve the customer (Point of Delivery). All pipe and fixtures on the customer's side of the Point of Delivery shall be provided by the customer and maintained, operated and protected from freezing at the customer's expense. The utility shall NOT be liable for loss or damage caused by leakage or escape of water after the water has passed the Point of Delivery.

Where there are leaking or defective pipes or fixtures, the water may be turned off at the option of the utility until the proper repairs are made. The utility may require any service to be equipped with a stop and waste cock to be used during freezing weather instead of permitting the water to be run continuously from faucets.

RULES AND REGULATIONS

Rule 12 - Credit for Interruption to Service

1. Allowance for Interruption of Service - When.

In the event of an interruption to the service which is due to causes (other than interruption in service due to loss of power to the system) beyond the control of the subscriber, an allowance will be made, upon request, if the interruption continues for more than twenty-four hours from the time it is reported to the company.

2. Allowance for Interruption of Service - How Calculated.

The allowance will be the prorated portion of the monthly rate for the service or the portion of the service made inoperative and will begin twenty-four hours after the time the interruption to the service was first reported to the company.

Rule 13 - Bills

All bills shall be paid in arrears on or before the fifteenth day after the date of mailing of the bill. On metered service, where the meter has not been read, the bill shall be for the average of the two prior billing periods for which readings are available with any necessary correction or adjustment shown when the next succeeding meter reading is available. Throughout the company's service area.

Applicable

This service charge will apply only when the customer requests a second or subsequent service visit when:

1. the cause of the disruption or interruption of the customer's service or degradation of quality is found to be the same cause determined on an earlier service visit (within 90 days), and

2. is on the customer's side of the Point of Delivery.

The company will maintain service records adequate to document that the problem found is the same problem previously encountered. The record will show, at a minimum, the customer's name and address, date of service request, date of service call (if different from the date of service request), type of problem and disposition. These records shall be maintained for a minimum of one year and provided to the Commission upon request. The company will notify the customer on the initial service visit (in person or by written notice) when the cause of the problem is on the customer's side and, further, will inform the customer that a subsequent service call which finds the same problem will be billed at tariffed rates. The company must also advise the customer prior to making a second or subsequent service visit that charges will apply if the problem is determined to be the customer's responsibility.

SCHEDULE NO. 3 (Continued)

CROSS CONNECTION CONTROL (Continued)

Non-Response Options

- a. Site Visit letter/appointment for on-site review of cross connection potential, followed by a Site Visit and Premise Inspection for determination of cross connection potential as defined in WAC 246-290-490. The customer will be assessed the charges set forth in section B, above.
 - b. Installation of Approved Backflow Prevention Assembly at customer's expense or as set forth in section B, above.
 - c. Notice of disconnection of service per WAC 480-110-355.
3. An on-site inspection is required for every customer meeting any criteria of WAC 246-290-490-4(b) Table 9. The customer will be assessed the appropriate charges set forth in section B, above.
4. If a cross connection is detected or is reported by the customer, then the company will determine the appropriate remedy and notify the customer of the remedy, options, and dates for compliance. If an Approved Backflow Prevention Assembly is required, the company will determine the type of Approved Backflow Prevention Assembly that must be installed, and must provide the customer with a date by which the device must be installed. Installation will be the customer's responsibility and sole expense. The customer may choose to have the Approved Backflow Prevention Assembly installed through any contractor acceptable to the company. If the customer does not install the appropriate Approved Backflow Prevention Assembly within thirty days of notification, the company may take appropriate action to correct. This may include the company installing an Approved Backflow Prevention Assembly at customer's expense if tariffed or may result in the company providing a notice of disconnection of service by the date specified in the notice. The Approved Backflow Prevention Assembly will be installed on a customer's side of the service connection.
