OVERNIGHT EXPRESS MAIL

Mr. David Danner
Chairman
Washington Utilities & Transportation Commission
1300 S. Evergreen Park Drive SW
Olympia, WA 98504

Dear Chairman Danner:

On October 29, 2018, a representative of the U.S. Department of Transportation's Pipeline and Hazardous Materials Safety Administration (PHMSA) conducted an evaluation of Washington's enforcement of its excavation damage prevention law. PHMSA conducted this evaluation pursuant to 49 United States Code § 60114 and 49 Code of Federal Regulations Part 198, Subpart D—State Damage Prevention Enforcement Programs. Based on this evaluation, PHMSA has determined that the enforcement of Washington's excavation damage prevention law is "adequate." PHMSA appreciates the State of Washington's success in developing and sustaining an effective damage prevention enforcement program.

As you may be aware, excavation damage continues to be a leading cause of pipeline failures, a number of which have resulted in fatalities, serious injuries, and environmental damage. Nationwide statistics show that effective enforcement of state damage prevention laws reduces excavation damage and pipeline incidents, resulting in enhanced public safety.

In closing, PHMSA appreciates your dedication to safety and encourages the Washington Utilities & Transportation Commission to continue to support damage prevention outreach initiatives. Should you have any questions regarding this letter, please contact Dr. Christie Murray, our Director of Outreach and Engagement, at (202) 366-4996 or by email at Christie.Murray@dot.gov.

Sincerely,

Massoud Tahamtani
Deputy Associate Administrator, Policy and Programs
Office of Pipeline Safety

cc: Mr. Sean Mayo, Director Pipeline Safety Division, Washington Utilities & Transportation Commission
