February 10, 2016

Notice: Construction Activities at Toteff Road/Hendrickson Drive BNSF Track Crossing

To whom it may concern:

BNSF Railway construction at the Todd / Toteff / Hendrickson Crossing has resumed as of January 11th, 2016. Increased truck traffic in this area can be expected through June 30th, 2016. Road construction will take place in three phases, shown in the attached exhibits. Traffic impacts during Phases I and II will be minimal, consisting mainly of equipment entering and exiting the roadway from the construction site and lane closures for paving. Phase III will require a full road closure during the hours of 6:00 AM to 4:00 PM (subject to change) for the construction of the new crossing. Residents and businesses affected by the Phase III closure will be notified 30-days in advance and an emergency response access plan will be approved in advance by the appropriate authorities. The current dates scheduled for Phases I through III are as follows, and are subject to change:

Phase I – 2/15/16 through 6/2/16 (this phase includes signal system installation and testing)
Phase II – 6/3/16 through 6/22/16
Phase III – 6/23/16 through 6/30/16

For any additional questions, please contact the BNSF representatives listed below:
