Dear Mr. Maret:

**RE: 2016 Hazardous Liquids Operator Qualification Inspection – Olympic Pipe Line –
Intrastate Laterals – (Insp. No. 6779)**

Staff from the Washington Utilities and Transportation Commission (staff) conducted a Hazardous Liquids Operator Qualification (OQ) inspection on September 13, 2016 of the Olympic Pipe Line, Intrastate Laterals. The inspection included an OQ program and records review of the pipeline facilities.

No apparent violations were noted as a result, therefore this inspection will be closed as October 5, 2016.

Staff thanks Olympic Pipe Line's personnel for their professionalism and cooperation during this inspection.

If you have any questions, or if we may be of any assistance, please contact Anthony Dorrough at (360) 664-1318.

Sincerely,

Alan E. Rathbun
Pipeline Safety Director
