WATER SERVICE
RULES AND REGULATIONS

Rule 1 - Adoption of Rules of Regulator Authorities

The rules regulating water service prescribed by the Washington Utilities and Transportation Commission, hereinafter referred to as the Commission; are hereby adopted and by this reference are made a part of this tariff.

Rule 2 - Schedules and Conditions

The schedules and conditions specified in this tariff for water service are subject to change in accordance with the public service laws of the state of Washington or any amendment thereof. The amount of water to be furnished hereunder shall be subject to the capacity available from existing wells, or other sources of supply, of the utility. All schedules for water service apply to customers located on the established water mains of the utility.

Rule 3 - Supply and Use of Service

Service will be supplied only under and pursuant to these rules and any modifications or additions thereto lawfully made, and under such applicable rate schedule(s) as may from time to time be lawfully fixed. Service will be supplied only to those who secure their source of water exclusively from the utility, unless otherwise provided under appropriate contract. Water service shall be used only for the purpose specified in the service agreement and applicable rate schedule(s), and customer shall not sell, or permit others to use such service, except when expressly authorized to do so under appropriate contract.

Rule 4 - Application and Agreement for Service

Each prospective customer desiring water service may be required to sign the utility's standard form of application or other form of agreement before such service is supplied by the utility.

WATER SERVICE
RULES AND REGULATIONS

Rule 4 - Application and Agreement for Service (Cont'd)

An application for service shall be deemed to be a notice that the prospective customer desires water service from the utility and represents his agreement to comply with the utility's Rules and Regulations on file with the Commission and in effect at the time water service is furnished. In the absence of assigned application for water service, the delivery of water and the taking thereof by the customer shall be deemed to constitute an agreement by and between the utility and the customer for the delivery and acceptance of service under the applicable rate schedule(s) and these Rules and Regulations.

Rule 5 - Change of Use

The customer will not increase his demand or use of service as stated in his application without giving due notice of such increase. In the event of such increase, the customer will be required to pay the utility's regularly published rates for such increased service and demand from the date of connection and use of the same.

Whenever the customer desires to discontinue the use of water for any special purpose or through any fixtures mentioned in the original application, he shall cause the fixture to be removed and the branch pipe or service supplying the same to be capped or plugged, and shall notify the utility in writing before any reduction in charge will be made. Such a reduction in charge is contingent upon the provisions of the utility's tariff.

Rule 6 - Company's Service Pipe and Meters

The utility will construct service connections of a proper size from its distribution mains to the customer's property. The utility reserves the right to refuse to construct a service connection to any property in case the applicant's pipes are not properly constructed and protected.

WATER SERVICE
RULES AND REGULATIONS

Rule 6 - Company Service Pipe and Meters (Cont'd)

The utility reserves the right to meter any flat rate service at its convenience, the utility's metered service rates thereupon to become effective, provided the customer has received 30 days written notice. All meters so placed will be installed and maintained by the utility without cost to the customer.

Rule 7 - Reconnection Charge

Due to master service connections, disconnections have never been attempted, in the past. However, if disconnections occur, reconnection charges must comply with WAC 480-110-071.

WATER SERVICE
RULES AND REGULATIONS

Rule 8 - Distribution Main Extension

Water Main Distribution Extensions will be installed after contracts have been approved by the Washington Utilities and Transportation Commission pursuant to WAC 480-80-335.

Rule 9 - Responsibility for, and Maintenance of, Services

The customer will assume all responsibility on his premises for water supplied by the utility. The utility will be exempt from all liability for loss or damage caused by leakage or escape of water furnished by the utility, after the same has passed the point of the utility's ownership.

All service pipes and fixtures on the premises of the customer must be kept in repair and protected from freezing at the expense of the customer. Where there are leaking or defective pipes or fixtures, the water may be turned off at the option of the utility until the proper repairs are made. The utility may require any service to be equipped with a stop and waste cock to be used during freezing weather instead of permitting water to run continuously from faucets.

Rule 10 - Access to Premises

The utility's regularly authorized agents or employees shall have access to the premises of the customer at reasonable hours for the purpose of meter reading, inspection, connection, disconnection, repair or removal of the utility's property installed thereon.

WATER SERVICE
RULES AND REGULATION

Rule 16 - Sprinkling and Irrigation

Water used for sprinkling and irrigation shall be paid for at the regular prescribed tariff rates for such service. The hours for such use shall be as prescribed from time to time by the utility, subject to protest by any customer affected and to review by the Commission.

No person shall use water for sprinkling or irrigation purposes during any fire in the area, and all sprinkling or irrigation shall be stopped immediately when an alarm of fire is sounded, and not resumed until the fire has been extinguished.

Rule 17 - Rates

Rates for water service and supply shall be those published in the utility's tariff on file with the Commission.
