WATER SERVICE
RULES AND REGULATIONS

ORIGINAL

Rule 1 - Adoption of Rules of Regulatory Authorities

The rules regulating water service prescribed by the Washington Utilities and Transportation Commission, hereinafter referred to as the Commission; are hereby adopted and by this reference are made a part of this tariff.

Rule 2 - Schedules and Conditions

The schedules and conditions specified in this tariff for water service are subject to change in accordance with the public service laws of the State of Washington or any amendment thereof. The amount of water to be furnished hereunder shall be subject to the capacity available from existing wells, or other sources of supply, of the utility. All schedules for water service apply to customers located on the established water mains of the utility.

Rule 3 - Supply and Use of Service

Service will be supplied only under and pursuant to these rules and any modifications or additions thereto lawfully made, and under such applicable rate schedule(s) as may from time to time be lawfully fixed. Service will be supplied only to those who secure their source of water exclusively from the utility, unless otherwise provided under appropriate contract. Water service shall be used only for the purpose specified in the service agreement and applicable rate schedule(s), and customer shall not sell, or permit others to use such service, except when expressly authorized to do so under appropriate contract.

Rule 4 - Application and Agreement For Service

Each prospective customer desiring water service may be required to sign the utility's standard form of application or other form of agreement before such service is supplied by the utility.

WATER SERVICE
RULES AND REGULATIONS

ORIGINAL

Rule 4 - Application and Agreement For Service (Cont'd)

An application for service shall be deemed to be a notice that the prospective customer desires water service from the utility and represents his agreement to comply with the utility's Rules and Regulations on file with the Commission and in effect at the time water service is furnished. In the absence of a signed application for water service, the delivery of water and the taking thereof by the customer shall be deemed to constitute an agreement by and between the utility and the customer for the delivery and acceptance of service under the applicable rate schedule(s) and these Rules and Regulations.

Rule 5 - Company's Service Pipe and Meters

The utility will construct service connections of a proper size, as determined by the utility, from its distribution mains to the customer's property. The utility reserves the right to refuse to construct a service connection to any property in case a reasonable doubt exists as to continuity of service, or in case the applicant's pipes are not properly constructed and protected.

The utility reserves the right to meter any flat rate service at its convenience, the utility's metered service rates thereupon to become effective, provided the customer has received 30 days written notice. All meters so placed will be installed and maintained by the utility without cost to the customer.

A meter will be installed upon any flat rate service at the request of the customer, provided however, that the actual cost of the meter installation must be paid by the customer at the time of the installation and before the water is turned on. The amount so paid will be refunded to the customer by allowing him credit of one-quarter (¼) of his monthly bill until such time as the amount has been paid, provided such refund payments do not run for more than three years from the date when refunds began. All meters will be maintained by the utility without cost to the customer.

WATER SERVICE
RULES AND REGULATIONS

ORIGINAL

Rule 6 - Service Connection Charge

See Schedule No. 3

Rule 7 - Reconnection Charge

A reconnection charge of \$18.00 per service shall be made for any subsequent reconnection of the customer's service to the utility's distribution system. Such charge is to apply only in cases where service has been discontinued on account of delinquent account, request of the customer, refusal to make proper repairs or similar cause. No charge will be made for reconnection of service if the shut-off was made for the convenience of the utility in making repairs, changes, etc.

Rule 8 - Distribution Main Extension

Where elevation and construction conditions permit and one or more bona fide prospective permanent customers request a main extension, the utility will construct the same. The cost in excess of the estimated revenue for a period of three years shall be paid by the prospective customers in advance of construction. No extension will be considered as coming under this rule where the ratio of the total cost of the extension to the estimated yearly revenue is greater than six to one.

Subsequent applicants requesting service on such an extension within three years after the establishment thereof shall obtain, in writing, from each and all of the original applicants who at the time connected to the extension made payments under these rules, either

- (a) A receipt acknowledging payment of a prorata share of the amount paid on the extension by the original applicants, or
- (b) A waiver of payment in lieu of a receipt under (a); provided, however, that when the cost of furnishing such service exceeds the minimum investment required of the utility, then the connection will be treated as a new extension.

WATER SERVICE
RULES AND REGULATIONS

ORIGINAL

Rule 9 - Responsibility for, and Maintenance of, Services

The customer will assume all responsibility on his premises for water supplied by the utility. The utility will be exempt from all liability for loss or damage caused by leakage or escape of water furnished by the utility, after the same has passed the point of the utility's ownership.

All service pipes and fixtures on the premises of the customer must be kept in repair and protected from freezing at the expense of the customer. Where there are leaking or defective pipes or fixtures, the water may be turned off at the option of the utility until the proper repairs are made. The utility may require any service to be equipped with a stop and waste cock to be used during freezing weather instead of permitting water to run continuously from faucets.

Rule 10 - Access to Premises

The utility's regularly authorized agents or employees shall have access to the premises of the customer at reasonable hours for the purpose of meter reading, inspection, connection, disconnection, repair or removal of the utility's property installed thereon.

Rule 11 - Interruptions to Service

The utility will make a diligent effort to render uninterrupted service and supply of water; and, in cases where shut-off is necessary for repair, reconstruction, damage prevention or similar cause, the utility will endeavor to give advance notice to its customers of such expected shut-off. However, the utility will not be responsible for any damage which may result from any cessation of services such as above outlined, nor for failure to give notice of shut-off when circumstances are such that it is impossible to give notice as above stated.

WATER SERVICE
RULES AND REGULATIONS

ORIGINAL

Rule 12 - Bills

Bills for water service will be paid two months in arrears and shall be due payable on or before the 15th day following issuance.

A service charge of \$10.00 will be made and collected by the utility for each check returned by a bank.

Rule 13 - Deposits

Any customer may be required to make an advance deposit not to exceed three-twelves of estimated annual billings. Interest on deposits held shall be accrued at the rate established according to law as interests upon judgements in superior courts of the State of Washington as of January 1 of each year. Interest shall be computed from the time of deposit to the time of termination of service and shall be computed annually.

Customers who have made an advance deposit and fail to pay all delinquent charges are subject to the following provisions.

- (a) The deposit may be applied insofar as necessary to cover all charges due for water service.
- (b) If the deposit equals or exceeds the charges due, the customer may be required to make a new deposit, the total deposit not to exceed that required above.
- (c) If the deposit does not equal the charges due, the customer will be required to pay the remaining amount after applying the deposit, and make a new deposit as required above.
- (d) Failure to make a deposit and maintain the same under this rule renders the customer liable to a discontinuance of service the same as for a delinquent account.

WATER SERVICE
RULES AND REGULATIONS

ORIGINAL

Rule 14 - Discontinuance of Service

The utility reserves the right to discontinue a customers service if the customer:

- (a) Fails to maintain his connections, service pipes, or fixtures in good order.
- (b) Damages any service pipe, meter, curb stop valve, seal or other facility of the utility.
- (c) Vacates the premises.
- (d) Willfully wastes water through improper or imperfect pipes, fixtures or otherwise.
- (e) Fails to make or renew any required deposits, or fails to make payments for water service or any other proper charges accruing under the applicable rate schedules, when due.
- (f) Refuses to permit an employee of the utility to have reasonable access to the premises for the purpose of inspecting the facilities, or for testing, reading, maintaining or removing meters.
- (g) Makes fraudulent use of the service.
- (h) Violates any of theses Rules and Regulations.

The right to discontinue service may be exercised whenever and as often as any of the foregoing situations shall occur, and neither delay nor omission on the part of the utility to enforce this rule at any one or more times shall be deemed a waiver of its right to enforce the same at any time, so long as the situation continues.

A minimum of eight (8) working days written notice will be given the customer before service is discontinued under this rule, except in the case of fraudulent use of service, or in case of danger to life or property, when utility may discontinue service on less than eight (8) days written notice.

If service is not discontinued within ten (10) working days of the date noted, unless other mutually acceptable arrangements have been made, that disconnection notice shall become void and a new notice shall be required before the service can be disconnected.

WATER SERVICE
RULES AND REGULATION

ORIGINAL

Rule 14 - Discontinuance of Service (Cont'd)

The utility will restore service when the cause of discontinuance has been removed and payment of all proper charges due from customer have been made.

Rule 15 - Rates

Rates for water service and supply shall be those published in the utility's tariff on file with the Commission. Unless otherwise stated in this tariff, the rates shall apply to a single service, to one customer at one premises. Where two or more families with separate house-keeping establishments occupy the same or separate dwellings, each family using water shall be considered a separate customer. Each separate housekeeping establishments or businesses, will each be considered a customer.

When conditions require that more than one customer be supplied through one meter, each customer shall be charged the minimum charge as provide by the schedule of rates. If the consumption as shown by the meter exceeds the allowance for the minimum charge multiplied by the customers, the excess consumption charge shall be computed at the regular rates for one customer and the amount prorated equally to the several customers, or otherwise as may be agreed among themselves.

Rule 16 - Sprinkling and Irrigation

Water used for sprinkling and irrigation shall be paid for at the regular prescribed tariff rates for such service. The hours for such use shall be as prescribed from time to time by the utility, subject to protest by any customer affected and to review by the Commission.

No person shall use water for sprinkling or irrigation purposes during any fire in the area, and all sprinkling or irrigation shall be stopped immediately when an alarm of fire is sounded and not resumed until the fire has been extinguished.

Rule 17 - Property on Public Highways

All distribution mains and those portions of service connections, exclusive of customer owned in or on streets or public highways will be considered utility property and will be maintained by the utility at its expense.

Rule 18 - General

All special cases not covered by the foregoing Rules and Regulations will be covered by special rules to be filed as a part of the utility's tariff on file with the commission subject in each case to protest according to law.

The utility hereby adopts and makes a part of this tariff the regulations of the commission as provided in Chapter 480-110, Washington Administrative Code.

3 / 4 inch service meter	\$ 350.00
1 inch service meter	\$ 525.00 (N)
Larger than 1 inch service meter	Labor and Materials (N)

1. A charge will be made the first time a customer's service pipe, 3 / 4 inch or smaller , is connected to the utility's main. There will be an additional charge for a larger meter connection plus the cost of labor and materials. This charge includes the cost of a larger meter and it's installation. A meter will be furnished, installed and maintained by the utility without direct cost to the customer.
2. The utility owns and maintains all material involved in making a service connection.
3. The service connection charge must be paid before the water is turned on.
4. The meter will be placed in a suitable meter box located at the customer's property line, except when this is not practicable. The meter will be installed upon the customer's premises in some convenient location approved by the utility where the meter will at all times be accessible for reading, inspection and testing.
5. Service Connections will be installed within 7 days from payment, unless prior arrangements in writing are agreed upon by both the customer and the utility.
