INSTRUCTIONS

Important: Please read the separate instructions for completing this form before you begin. They clarify the information requested and provide specific examples. If you do not have a copy of the instructions, you can obtain one from the PHMSA Pipeline Safety Community Web Page at http://www.phmsa.dot.gov/pipeline.

PART A - KEY REPORT INFORMATION

   1. Operator's OPS-issued Operator Identification Number (OPID): | 2128      |               |       |
   2. Name of Operator                 | CASCADE NATURAL GAS CORP |               |       |
   3. Address of Operator:             |           |               |       |
      3a. Street Address                | 8113 W. GRANDRIDGE BLVD |               |       |
      3b. City                         | KENNEWICK |               |       |
      3c. State                        | Washington|               |       |
      3d. Zip Code                     | 99336     |               |       |
   4. Local time (24-hr clock) and date of the Incident: | 04/22/2014 13:39 |               |       |
   5. Location of Incident:           | Intersection: O Street & National Avenue |               |       |
      5a. Street Address or location description | Bremerton |               |       |
      5b. City                         | Kitsap    |               |       |
      5c. County or Parish             | Kitsap    |               |       |
      5d. State                        | Washington|               |       |
      5e. Zip Code                     | 98312     |               |       |
      5f. Latitude                     | 47.562271 |               |       |
      Longitude                       | -122.66911|               |       |
   6. National Response Center Report Number: | 1082020 |               |       |
   7. Local time (24-hr clock) and date of initial telephonic report to the National Response Center: | 05/07/2014 10:00 |               |       |
   8. Incident resulted from:         | Unintentional release of gas |               |       |
   9. Gas released                    | Natural Gas|               |       |
      - Other Gas Released Name:       |           |               |       |
   10. Estimated volume of gas released - Thousand Cubic Feet (MCF): | 138.00 |               |       |
   11. Were there fatalities?         | No        |               |       |
      - If Yes, specify the number in each category: |           |               |       |
      11a. Operator employees          |           |               |       |
      11b. Contractor employees working for the Operator |           |               |       |
      11c. Non-Operator emergency responders |       |               |       |
      11d. Workers working on the right-of-way, but NOT associated with this Operator |           |               |       |
      11e. General public              |           |               |       |
      11f. Total fatalities (sum of above) |           |               |       |
   12. Were there injuries requiring inpatient hospitalization? | No |               |       |
      - If Yes, specify the number in each category: |           |               |       |
      12a. Operator employees          |           |               |       |
      12b. Contractor employees working for the Operator |           |               |       |
      12c. Non-Operator emergency responders |       |               |       |
      12d. Workers working on the right-of-way, but NOT associated with this Operator |           |               |       |
      12e. General public              |           |               |       |
      12f. Total injuries (sum of above) |           |               |       |
   13. Was the pipeline/facility shut down due to the incident? | Yes |               |       |
      - If No, Explain:                |           |               |       |

Reproduction of this form is permitted
- If Yes, complete Questions 13a and 13b: (use local time, 24-hr clock)

13a. Local time and date of shutdown: 04/22/2014 16:45
13b. Local time pipeline/facility restarted: 04/24/2014 15:00
- Still shut down? (* Supplemental Report Required)

14. Did the gas ignite? No
15. Did the gas explode? No
16. Number of general public evacuated: 0
17. Time sequence (use local time, 24-hour clock):

17a. Local time operator identified Incident: 04/22/2014 13:39
17b. Local time operator resources arrived on site: 04/22/2014 14:15

PART B - ADDITIONAL LOCATION INFORMATION

1. Was the Incident on Federal land? No
2. Location of Incident Utility Right-of-way / Easement
3. Area of Incident: Underground
   Specify: Under soil
   If Other, Describe: Depth of Cover: 300

4. Did Incident occur in a crossing? No
   - If Yes, specify type below:
     - If Bridge crossing – Cased/ Uncased:
     - If Railroad crossing – Cased/ Uncased/ Bored/drilled
     - If Road crossing – Cased/ Uncased/ Bored/drilled
     - If Water crossing – Cased/ Uncased

   Name of body of water (If commonly known):
   Approx. water depth (ft):

PART C - ADDITIONAL FACILITY INFORMATION

1. Indicate the type of pipeline system: Natural Gas Distribution, privately owned
   - If Other, specify:

2. Part of system involved in Incident: Main
   - If Other, specify:

2a. Year "Part of system involved in Incident" was installed: 1968
   Unknown?

3. When "Main" or "Service" is selected as the "Part of system involved in Incident" (from PART C, Question 2), provide the following:

3a. Nominal diameter of pipe (in): 2
3b. Pipe specification (e.g., API 5L, ASTM D2513): API 5L Xtru Coat Pipe
   Unknown?
3c. Pipe manufacturer: Unknown? Yes
3d. Year of manufacture: Unknown? Yes

4. Material involved in Incident: Steel
   - If Other, specify:

4a. If Steel, Specify seam type: seamless
   None/Unknown?
4b. If Steel, Specify wall thickness (inches): .154
   Unknown?
4c. If Plastic, Specify type:
   - If Other, describe:
4d. If Plastic, Specify Standard Dimension Ratio (SDR):
   Or wall thickness:
   Unknown?

4e. If Polyethylene (PE) is selected as the type of plastic in Part C, Question 4.c:
   - Specify PE Pipe Material Designation Code (i.e. 2408, 3408, etc.):
     Unknown?

5. Type of release involved : Other
   - If Mechanical Puncture - Specify Approx size:
     Approx. size: in. (axial):
     in. (circumferential):
   - If Leak - Select Type:
     - If Other, Describe:
- If Rupture - Select Orientation:  
- If Other, Describe:  
Approx. size: (widest opening):  
(length circumferentially or axially):  
- If Other - Describe: Line hit by contractor, 3rd party damage

**PART D - ADDITIONAL CONSEQUENCE INFORMATION**

| 1. Class Location of Incident : | Class 3 Location |
| 2. Estimated Property Damage : |  |
| 2a. Estimated cost of public and non-Operator private property damage | $ 0 |
| 2b. Estimated cost of Operator's property damage & repairs | $ 68,447 |
| 2c. Estimated cost of Operator's emergency response | $ 1,494 |
| 2d. Estimated other costs | $ 0 |
| 2e. Total estimated property damage (sum of above) | $ 69,941 |

**Cost of Gas Released**

| 2f. Estimated cost of gas released | $ 1,318 |

| 3. Estimated number of customers out of service: |
| 3a. Commercial entities | 1 |
| 3b. Industrial entities | 0 |
| 3c. Residences | 27 |

**PART E - ADDITIONAL OPERATING INFORMATION**

| 1. Estimated pressure at the point and time of the Incident (psig): | 55.00 |
| 2. Normal operating pressure at the point and time of the Incident (psig): | 55.00 |
| 3. Maximum Allowable Operating Pressure (MAOP) at the point and time of the Incident (psig): | 60.00 |
| 4. Describe the pressure on the system relating to the Incident: | Pressure did not exceed MAOP |
| 5. Was a Supervisory Control and Data Acquisition (SCADA) based system in place on the pipeline or facility involved in the Incident? | No |

- If Yes:
  | 5a. Was it operating at the time of the Incident? |  |
  | 5b. Was it fully functional at the time of the Incident? |  |
  | 5c. Did SCADA-based information (such as alarm(s), alert(s), event(s), and/or volume or pack calculations) assist with the detection of the Incident? |  |
  | 5d. Did SCADA-based information (such as alarm(s), alert(s), event(s), and/or volume calculations) assist with the confirmation of the Incident? |  |

| 6. How was the Incident initially identified for the Operator? | Notification from Third Party that caused the Incident |
| 6a. If "Controller", "Local Operating Personnel, including contractors", "Air Patrol", or "Ground Patrol by Operator or its contractor" is selected in Question 6, specify the following: |  |
| 7. Was an investigation initiated into whether or not the controller(s) or control room issues were the cause of or a contributing factor to the Incident? | No, the Operator did not find that an investigation of the controller(s) actions or control room issues was necessary due to: (provide an explanation for why the Operator did not investigate) |

- If No, the operator did not find that an investigation of the controller(s) actions or control room issues was necessary due to: (provide an explanation for why the Operator did not investigate)  
CNGC has protection guard through the relief systems and also it was clear the incident was caused by boring into the pipe.  

- If Yes, Specify investigation result(s) (select all that apply):  
  - Provide an explanation for why not:  
    - Investigation reviewed work schedule rotations, continuous hours of service (while working for the Operator), and other factors associated with fatigue  
    - Investigation did NOT review work schedule rotations, continuous hours of service (while working for the Operator), and other factors associated with fatigue  
    - Provide an explanation for why not:  
      - Investigation identified no control room issues  
      - Investigation identified no controller issues  
      - Investigation identified incorrect controller action or controller error  
      - Investigation identified that fatigue may have affected the controller(s) involved or impacted the involved controller(s) response  
      - Investigation identified incorrect procedures  
      - Investigation identified incorrect control room equipment operation
PART F - DRUG & ALCOHOL TESTING INFORMATION

1. As a result of this Incident, were any Operator employees tested under the post-accident drug and alcohol testing requirements of DOT's Drug & Alcohol Testing regulations? No
   - If Yes:
     1a. Specify how many were tested:
     1b. Specify how many failed:

2. As a result of this Incident, were any Operator contractor employees tested under the post-accident drug and alcohol testing requirements of DOT's Drug & Alcohol Testing regulations? No
   - If Yes:
     2a. Specify how many were tested:
     2b. Specify how many failed:

PART G - CAUSE INFORMATION

Select only one box from PART G in shaded column on left representing the Apparent Cause of the Incident, and answer the questions on the right. Describe secondary, contributing, or root causes of the Incident in the narrative (PART H).

<table>
<thead>
<tr>
<th>Apparent Cause:</th>
<th>G3 - Excavation Damage</th>
</tr>
</thead>
</table>

G1 - Corrosion Failure – only one sub-cause can be picked from shaded left-hand column

Corrosion Failure Sub-Cause:

- If External Corrosion:

1. Results of visual examination:
   - If Other, Specify:

2. Type of corrosion:
   - Galvanic
   - Atmospheric
   - Stray Current
   - Microbiological
   - Selective Seam
   - Other
   - If Other, Describe:

3. The type(s) of corrosion selected in Question 2 is based on the following:
   - Field examination
   - Determined by metallurgical analysis
   - Other
   - If Other, Describe:

4. Was the failed item buried under the ground?
   - If Yes:
     4a. Was failed item considered to be under cathodic protection at the time of the incident?
       - If Yes, Year protection started:
     4b. Was shielding, tenting, or disbonding of coating evident at the point of the incident?
     4c. Has one or more Cathodic Protection Survey been conducted at the point of the incident?
       - If "Yes, CP Annual Survey" – Most recent year conducted:
       - If "Yes, Close Interval Survey" – Most recent year conducted:
       - If "Yes, Other CP Survey" – Most recent year conducted:
     - If No:
     4d. Was the failed item externally coated or painted?

5. Was there observable damage to the coating or paint in the vicinity of the corrosion?

6. Pipeline coating type, if steel pipe is involved:
   - If Other, Describe:

- If Internal Corrosion:

7. Results of visual examination:
   - If Other, Describe:

8. Cause of corrosion (select all that apply):
   - Corrosive Commodity

Form PHMSA F 7100.1 (Rev. 06-2011)
9. The cause(s) of corrosion selected in Question 8 is based on the following: (select all that apply):

- Field examination
- Determined by metallurgical analysis
- Other
- If Other, Specify:

10. Location of corrosion (select all that apply):

- Low point in pipe
- Elbow
- Drop-out
- Other
- If Other, Describe:

11. Was the gas/fluid treated with corrosion inhibitor or biocides?

12. Were any liquids found in the distribution system where the Incident occurred?

Complete the following if any Corrosion Failure sub-cause is selected AND the "Part of system involved in incident" (from PART C, Question 2) is Main, Service, or Service Riser.

13. Date of the most recent Leak Survey conducted

14. Has one or more pressure test been conducted since original construction at the point of the Incident?

- If Yes:
  - Most recent year tested:
  - Test pressure:

G2 – Natural Force Damage – only one sub-cause can be picked from shaded left-handed column

Natural Force Damage – Sub-Cause:

- If Earth Movement, NOT due to Heavy Rains/Floods:
  1. Specify:
  - If Other, Specify:

- If Heavy Rains/Floods:
  2. Specify:
  - If Other, Specify:

- If Lightning:
  3. Specify:
  - If Other, Specify:

- If Temperature:
  4. Specify:
  - If Other, Specify:

- If High Winds:

- Other Natural Force Damage:
  5. Describe:

Complete the following if any Natural Force Damage sub-cause is selected.

6. Were the natural forces causing the Incident generated in conjunction with an extreme weather event?

  6.a If Yes, specify (select all that apply):
  - Hurricane
  - Tropical Storm
  - Tornado
  - Other
  - If Other, Specify:

G3 – Excavation Damage – only one sub-cause can be picked from shaded left-hand column

Excavation Damage – Sub-Cause: Excavation Damage by Third Party

- If Excavation Damage by Operator (First Party):

- If Excavation Damage by Operator’s Contractor (Second Party):

- If Excavation Damage by Third Party:

- If Previous Damage due to Excavation Activity:
Complete the following ONLY IF the "Part of system involved in Incident" (from Part C, Question 2) is Main, Service, or Service Riser.

</table>
- Other

- If Routine or Normal Fishing or Other Maritime Activity NOT Engaged in Excavation:

- If Electrical Arcing from Other Equipment or Facility:

- If Previous Mechanical Damage NOT Related to Excavation:
  Complete the following ONLY IF the "Part of system involved in Incident" (from Part C, Question 2) is Main, Service, or Service Riser.

3. Date of the most recent Leak Survey conducted:

4. Has one or more pressure test been conducted since original construction at the point of the Incident?
   - If Yes:
     Most recent year tested:
     Test pressure (psig):

- If Intentional Damage:

5. Specify:
   - If Other, Specify:

- If Other Outside Force Damage:

6. Describe:

G5 - Material Failure of Pipe or Weld - only one sub-cause can be selected from the shaded left-hand column

Material Failure of Pipe or Weld – Sub-Cause:

- If Body of Pipe:
  1. Specify:
     - If Other, Describe:

- If Butt Weld:
  2. Specify:
     - If Other, Describe:

- If Fillet Weld:
  3. Specify:
     - If Other, Describe:

- If Pipe Seam:
  4. Specify:
     - If Other, Describe:

- If Threaded Metallic Pipe:

- If Mechanical Fitting:
  5. Specify the mechanical fitting involved:
     - If Other, Describe:
  6. Specify the type of mechanical fitting:
     - If Other, Describe:

7. Manufacturer:

8. Year manufactured:

9. Year Installed:

10. Other attributes:

11. Specify the two materials being joined:
   11a. First material being jointed:
     - Steel
     - Cast/Wrought Iron
     - Ductile Iron
     - Copper
     - Plastic
     - Unknown
     - Other
     - If Other, Specify:
   11b. If Plastic, specify:
     - If Other Plastic, specify:
   11c. Second material being joined:
     - Steel
     - Cast/Wrought Iron
     - Ductile Iron
     - Copper
     - Plastic
11d. If Plastic, specify:  
- If Other Plastic, Specify:

12. If used on plastic pipe, did the fitting – as designed by the manufacturer – include restraint?

12a. If Yes, specify:

- If Compression Fitting:

13. Fitting type:

14. Manufacturer:

15. Year manufactured:

16. Year installed:

17. Other attributes:

18. Specify the two materials being joined:

18a. First material being joined:
- Steel
- Cast/Wrought Iron
- Ductile Iron
- Copper
- Plastic
- Unknown
- Other

18b. If Plastic, specify:
- If Other Plastic, specify:

18c. Second material being joined:
- Steel
- Cast/Wrought Iron
- Ductile Iron
- Copper
- Plastic
- Unknown
- Other

18d. If Plastic, specify:
- Other Plastic, specify:

- If Fusion Joint:

19. Specify:

20. Year installed:

21. Other attributes:

22. Specify the two materials being joined:

22a. First material being joined:

22b. Second material being joined:

- If Other, Specify:

- If Other Pipe, Weld, or Joint Failure:

23. Describe:

Complete the following if any Pipe, Weld, or Joint Failure sub-cause is selected.

24. Additional Factors (select all that apply):
- Dent
- Gouge
- Pipe Bend
- Arc Burn
- Crack
- Lack of Fusion
- Lamination
- Buckle
- Wrinkle
- Misalignment
- Burnt Steel
- Other

25. Was the Incident a result of:
- Construction defect

Specify:
- Material defect
Specify:
- If Other, Specify:
- Design defect
- Previous damage

26. Has one or more pressure test been conducted since original construction at the point of the Incident?
- If Yes:
  Most recent year tested:
  Test pressure:

G6 - Equipment Failure - only one sub-cause can be selected from the shaded left-hand column

Equipment Failure – Sub-Cause:
- If Malfunction of Control/Relief Equipment:
  1. Specify:
     - Control Valve
     - Instrumentation
     - SCADA
     - Communications
     - Block Valve
     - Check Valve
     - Relief Valve
     - Power Failure
     - Stopple/Control Fitting
     - Pressure Regulator
     - Other
       - If Other, Specify:
- If Threaded Connection Failure:
  2. Specify:
     - If Other, Specify:
- If Non-threaded Connection Failure:
  3. Specify:
     - If Other, Specify:
- If Valve:
  4. Specify:
     - 4a. Valve type:
     - 4b. Manufactured by:
     - 4c. Year manufactured:
     - If Other, Specify:
- If Other Equipment Failure:
  5. Describe:

G7 - Incorrect Operation - only one sub-cause can be selected from the shaded left-hand column

Incorrect Operation Sub-Cause:
- If Damage by Operator or Operator’s Contractor NOT Related to Excavation and NOT due to Motorized Vehicle/Equipment Damage:
- If Valve Left or Placed in Wrong Position, but NOT Resulting in an Overpressure:
- If Pipeline or Equipment Overpressured:
- If Equipment Not Installed Properly:
- If Wrong Equipment Specified or Installed:
- If “Other Incorrect Operation:
  1. Describe:

Complete the following if any Incorrect Operation sub-cause is selected.

2. Was this Incident related to: (select all that apply)
   - Inadequate procedure
   - No procedure established
   - Failure to follow procedure
   - Other
     - If Other, Describe:

3. What category type was the activity that caused the Incident:

4. Was the task(s) that led to the Incident identified as a covered task in your
PART H - NARRATIVE DESCRIPTION OF THE INCIDENT

Contractor augered into 2\(\frac{1}{4}\) steel main in an area which had not been located. The contractor did request locates, however, the area to be located was not marked in white. (State of Washington requires contractors to mark locate area in white) CNGC locator made phone call to the contractor to discuss the actual area to be located and from the discussion believed the contractor would not be working near the 2" steel main in the easement.
