**Subject:** CNG Yakima/Sunnyside standard inspection

Hello Eric,

I wanted to let you know that the findings report for the Yakima/Sunnyside inspection was put in the mail to you yesterday, November 4<sup>th</sup>. We discovered today that the cover letter erroneously requested that the company respond on the same day as the letter date! Please be advised that the company is requested to respond by December 4, 2013.

My apologies for the error.

Dave
