Dear Mr. Price:

RE: 2013 Natural Gas Public Awareness Inspection - Lamb Weston/BSW

The Washington Utilities and Transportation Staff (UTC Staff) conducted a Public Awareness inspection of Lamb Weston/BSW (Lamb Weston) on July 16 - 17, 2013. The inspection included a review of Lamb Weston's new Public Awareness Program.

Based on this review, UTC staff concludes that the new program meets 49 CFR 192 Public Awareness program requirements with the exception of the effectiveness evaluation requirements. These requirements will require time to allow the impact of recent program activities to be evaluated. The effectiveness' evaluation is expected to be completed in the fourth quarter of 2013. Early in 2014 a follow up audit will be performed to ensure that Section 4 (effectiveness evaluation) of Lamb Weston's Public Awareness Program comply with pipeline safety regulations.

If you have questions, or if we may be of any assistance, please contact Patti Johnson at (360) 870-4915.

Sincerely,

David D. Lykken
Pipeline Safety Director
