Vancouver, WA 98660

Dear Mr. Stephens:

RE: 2013 Hazardous Liquid Pipeline Safety Inspection Tidewater Terminals Company-Snake River Terminal

Thank you for your letter dated August 15, 2013, addressing the findings of our inspection conducted at the Tidewater Terminals Company-Snake River Terminal from July 8 - 11, 2013. Staff accepts Tidewater's proposals to bring these items into compliance by the dates specified in your letter. We would like to be notified in advance (via email) when the testing of both the tank and the pipeline will be conducted. Please note the requirements of API 653 12.3.1, WAC 480-75-420 and 49 CFR 195 Subpart E-Pressure Testing prior to conducting testing.

Staff would like to thank Tidewater's personnel for their cooperation and assistance during this inspection. If you have any questions or if we may be of any assistance, please contact Dennis Ritter (360) 664-1159.

Sincerely,

David D. Lykken
Pipeline Safety Director
