RE: 2020 Liquefied Natural Gas Standard Inspection – Gig Harbor LNG Peak Shaving Plant – (Insp. No. 8043)

Dear Ms. Gilbertson:

Thank you for your letter dated August 5, 2020, addressing the findings of our 2020 inspection conducted virtually (via WebEx) and in-person at the Gig Harbor LNG Facility. Your response indicated PSE would revise its Emergency Operations Plan (EOP) by November 1, 2020. We received the updated EOP and reviewed your addition.

Staff accepts PSE's proposals to bring this item into compliance. This inspection will be closed as of the date of this letter.

Staff thanks PSE's personnel for their cooperation and assistance during this inspection.

If you have any questions or if we may be of any assistance, please contact Dennis Ritter at (360) 402-0066.

Sincerely,

Sean C. Mayo
Pipeline Safety Director
