Mr. David W. Danner
Chairman
Washington Utilities and Transportation Commission
621 Woodland Square Loop SE
Lacey, WA 98503

Dear Chairman Danner:

On October 6, 2022, a representative of the U.S. Department of Transportation’s Pipeline and Hazardous Materials Safety Administration (PHMSA) conducted an evaluation of the Washington Utilities and Transportation Commission’s enforcement of the Washington State excavation damage prevention law. PHMSA conducted this evaluation pursuant to 49 United States Code (USC) § 60114 and 49 Code of Federal Regulations (CFR) Part 198, Subpart D—State Damage Prevention Enforcement Programs. Based on this evaluation, PHMSA has determined that the enforcement of the Washington excavation damage prevention law is “adequate.”

PHMSA appreciates your dedication to pipeline safety. As you are aware, excavation damage continues to be a leading cause of pipeline failures, some of which result in fatalities, serious injuries, and environmental damage. Nationwide statistics show that effective enforcement of state damage prevention laws reduces excavation damage and pipeline incidents, resulting in enhanced public safety.

Should you or your staff have any questions regarding this letter, please contact Mr. David Appelbaum, PHMSA State Evaluator, at (202) 617-6329 or by email at david.appelbaum@dot.gov.

Sincerely,

A handwritten signature in blue ink, reading "Zach Barrett", written over a light blue rectangular background.

Zach Barrett
Director, State Programs
