**RE: 2025 Natural Gas Anti-Drug and Alcohol Misuse Prevention Plan Inspection –
Ferndale Pipeline System/BP Pipelines Headquarters – (Insp. No. 9082)**

Dear Mr. Vodicka:

Staff from the Washington Utilities and Transportation Commission (staff) conducted an Anti-Drug and Alcohol Misuse Prevention Plan (D&A Plan) Inspection of BP Pipelines Headquarters (BP Pipeline) on July 11, 2024. The inspection included a review of BP Pipeline's records and program procedures.

Through discussion with BP Pipeline/Ferndale Pipeline representatives, it was determined that the records and the D&A Plan from the 2024 inspection included all covered employees performing work on the Ferndale Pipeline System. For that reason, we will not be reviewing records and procedures again at this time.

There were no issues noted during the inspection. This inspection will be closed as of the date of this letter. Staff thanks Ferndale Pipeline's personnel for their cooperation during this inspection. If you have any questions or if we may be of any assistance, please contact Derek Norwood at (360) 259-2525.

Sincerely,

/for/ Scott Rukke
Director, Pipeline Safety
