RE: 2025 Natural Gas Mobile LNG Inspection – Northwest Natural – (Insp. No. 9033)

Dear Mr. Karney:

Staff from the Washington Utilities and Transportation Commission (staff) conducted a Mobile LNG Inspection of Northwest Natural (NWN) – Mobile LNG on April 22, 2025. The inspection included a review of NWN's procedures, records, and a check of field assets.

No apparent violations were noted as a result of the inspection. This inspection will be closed as of the date of this letter. This will also be the last inspection of the mobile LNG trailer as it has been decommissioned due to extensive and required refurbishment of trailer components.

Staff thanks NWN's personnel for their professionalism and cooperation during this inspection.

If you have any questions or if we may be of any assistance, please contact Scott Anderson at (360) 481-6978.

Sincerely,

/for/ Scott Rukke
Pipeline Safety Director
